1. Read the passage given below and answer the questions-

Most people are not really aware of the actual meaning of the word environment. In simple terms environment means surroundings. This includes water, land, air, light etc. In fact everything is required for the growth and development of life on earth.

The earth is the only known planet which has life. No other planet is known to have the conditions that are necessary for life. Therefore isn't it important that we protect mother earth.

Answer the following questions in English-

(i) What is the meaning of the word environment?

.....

(ii) Which planet has life?

.....
